Dear Fellow STA Members and Supporters,

Thank you for attending our 79th Annual Conference. We hope you found the content informative and the setting conducive for forming new relationships, and strengthening existing ties with your customers, vendors, co-workers and friends.

At the onset of planning, we were determined to create an event that demonstrated STA's ability to deliver a program which addressed the relevant issues facing our industry today. We also thought it was imperative that we brought leaders from the legislative, regulatory and business sectors together. Additionally, we wanted to inspire attendees with motivational and insightful speakers who reminded us of issues of importance outside of day-to-day business. .

The feedback we received affirmed that we met – and surpassed – those goals. The presence of so many key Congressional, Regulatory and Business leaders enriched attendees, who told us in surveys and conversations that they left the conference better informed on the issues impacting our market.

We now have our eyes set on 2013 when once again we will return to Washington D.C. to build on this year's success. We hope you will be able to support and join us. STA relies on the proceeds of our annual event to finance our operating budget. We are proud that we can provide the best content at a very reasonable cost.

STA's 80th Annual Market Structure Conference
October 2 – 5, 2013 | J.W. Marriott, Washington D.C.

As you plan your 2013 calendar...and your budgets...please mark these dates to join us. And please consider one of our many sponsorship opportunities so we can continue to provide you with an outstanding program.

Warmest Regards,

Jennifer Green Setzenfand
Chairman of the Board
